

ONE-PAGE DECISION WORKSHEET

Does this capability earn the right to scale?

Use this review to make outcome, data authority, AI role, human authority, controls, integration, operations, economics, adoption and reuse explicit before promotion.

1. OUTCOME & OWNER

What decision or workflow changes? Who owns the outcome and baseline?

2. DATA AUTHORITY

Which sources are authoritative? What are the lineage, quality, access and retention boundaries?

3. AI ROLE & EVIDENCE

What does the model, RAG system or agent do? What evaluation and grounding evidence is required?

4. HUMAN AUTHORITY

Which decisions remain human? Where must the system abstain, escalate or allow override?

5. INTEGRATION & EXCEPTIONS

Which APIs, events, systems and RPA steps are involved? How are failures and exceptions handled?

6. TRUST & CONTROL

What privacy, security, compliance, threat and review controls apply?

7. OPERATIONS & ECONOMICS

Who supports it? What are the SLOs, incident path, rollback, unit cost and value measures?

8. ADOPTION, REUSE & DISPOSITION

How will retained use be measured? Promote, revise, hold, retire or exempt - and why?

FINAL DISPOSITION

PROMOTE

REVISE

HOLD

RETIRE

EXEMPT
